ISTE-330 Intermediate Project Deliverables

Due April 3, midnight: Project Plan

1-2 pages describing the following:
- A list of the major functions you will provide
- A list of any changes to the database you intend to make
- A list of any deviations (additions or omissions) from the required list of functions
- Who will be doing what

Due April 13, midnight: Code for all required functionality
- This is not your final submission, but it should show that you have done the necessary work

Due April 19, midnight: Final submission
- Fully tested and debugged code
- Complete documentation
  - Javadocs
  - Any necessary system doc to explain your approach
  - Your goal here is to make it as easy as possible for me to see that you have done a great job.
-
